

Clear Demand Company Overview

Clear Demand is an industry leader and the first company to deliver an omni-channel lifecycle pricing solution for retailers that synchronizes prices, promotions and markdowns online and in-store to produce a consistent brand and shopping experience. Clear Demand uses its patented science that analyzes historical sales to understand shoppers' sensitivity to price and generate price and promotion strategies that account for pricing rules, cost changes, and competitor prices to achieve profit and revenue goals. Architected on big data and delivered as a software-as-a-service (SaaS), Clear Demand's Intelligent Price Maintenance and Optimization (IPMO) solution can be administered from a public or private cloud. Clear Demand's innovations in retail science simplify adoption and use, while allowing retailers to see value in just weeks with more transparency and minimal disruption to existing business.

Clear Demand offers a competitive salary with stock options and a benefits package, including medical, dental, 401k.

Job Description – Software Developer

This is a permanent position with tremendous potential for growth. The successful candidate will be hardworking with a high degree of aptitude---a person able to take an idea or concept and turn it into a working solution. You are a team player with a great attitude that works well with others. The ideal candidate will have a proven track record showing commitment to a high quality of work and a sense of urgency for deadlines. This position will report to the VP of Engineering.

Responsibilities include designing, developing, testing, deploying and maintaining applications to support business requirements. An ability to understand and work with complex data structures. Resolving technical issues through debugging and troubleshooting is also required.

Required Skills

- Proven work experience as a Software Engineer or Software Developer
- Thinks "Team First"
- Effective communicator in both verbal and written
- Understands the full SDLC
- Agrees with and practices the principles of Clean Code and SOLID
- Ability to document requirements and specifications
- A logical, analytical, and creative approach to problem-solving
- Knowledge, experience and proficiency with:
 - Microsoft .NET framework
 - .NET Core
 - C#
 - WebAPI
 - Blazor/WebAssembly
 - Performance optimization and debugging
 - Relational databases
 - JavaScript
- Adds value from a technical perspective and can liaise effectively between technical and non-technical stakeholders.

Desired Skills

- Proficiency with Git
- Some proficiency with Linux
- PostgreSQL experience
- Experience with test-driven development
- General knowledge of Cloud platforms, e.g. Azure, AWS, or GCP, including their structure, use and capabilities

Education

BSc degree in Computer Science, Engineering or relevant field

Clear Demand offers a competitive salary with stock options and a benefits package, including medical, dental, 401(k).
